

Noon Hour Rounds:

September 8<sup>th</sup>, noon - 1pm

Psychosocial Oncology

# Advance Care Planning in Cancer Care:

How can we integrate ACP conversations into our work with patients & their families?

*Co-Presenters: Glenda Christie, Patient & Family Counselling, BC Cancer Agency & Cari Hoffmann, ACP Project Implementation Coordinator, Fraser Health Authority*

Every day we work with patients and families who are living with a potentially life-threatening illness. How can we help them engage in conversations together in order for them to be better prepared for future health care decisions that may need to be made with regards to life supporting interventions &/or comfort care measures near the end of life?

Learn more about what the BC Health Authorities are doing in the area of Advance Care Planning.
